Allocating New Homes in Phase 1

The new homes currently being built in Phase 1 are still on course to be ready for occupation late summer 2018.

The mix of new homes will be 13 x 1 beds, 30 x 2 beds, 20 x 3 beds and 8 x 4 beds.

Everyone from phases 1 & 2 have now told us if they want to live on the new estate or not. We have assessed the housing need of the people that would like to stay or return and can confirm that all 2, 3 and 4 bed households can have a property on the new estate. However, a few 1 bed need households will have to leave but will have the opportunity to return when phase 2 is built.

We will use the community lettings plan to determine which household gets which property.

Tenants in Phase 2 leaving the estate

If you are a tenant in Phase 2 and want to or have to move away from the estate you should have already registered on LOCATA and will have been given a Band B priority ranking.

Please make sure you continue to bid for homes using LOCATA. If you want any assistance with this please call Desrine Vickers on 020 8825 6141

Leaseholders

We have now been in contact or held 1:1 meetings with nearly all resident leaseholders and they have told us which option they are interested in taking.

A reminder of the options:

- Buyback – this is where you sell your property back to the Council to buy another home away from the estate. Please ensure you have instructed your surveyor to negotiate with the Council surveyor to reach agreement about the market price.

- Homeswap – this is where you have decided to sell the property back to the Council but move into a new home on the new estate. Please remember that you will need to provide evidence showing how long you have lived on the estate and that you are currently a resident leaseholder. Also remember that you will have to move out into rented accommodation until Phase 2 is ready in 2020.

Negotiations with resident and non-resident leaseholders about buying back their properties will be accelerated over the coming weeks. By the end of May the Council hope to publish confirmation that a Compulsory Purchase Order has been made to ensure it can buy back all properties in Phase 2 (see your leaseholder handbook for a more detailed explanation of why a Compulsory Purchase Order is used).

If you wish to speak to someone about progressing your buy back please call Desrine Vickers on 020 8825 6141
